OVERVIEW

In a sea of cable cams and helicopters filming helicopters in other videos today, VIDEOGRASS was formed to focus on raw snowboarding, real personality, and progression. When well known pro shredders Mikey LeBlanc of KidsKNOW (Burning Bridges and loveHATE), Nima Jalali and Darrell Mathes started this new production company they carefully picked out their wish list of pros and ams regardless of sponsors or money. The result is a video that is taking the phony out of snowboarding! No part skippers here, your gonna be wearing out your dvd players on this one.
